Commenting, Brian Jones, Managing Director:

“At Castell Howell we take our commitment to the environment seriously. We promote our sustainable actions, both social and economic to supplier and customers on a regular basis. Environmental efficiency and waste management have become an integral part of Castell Howell especially during the last five years, it’s been encouraging to witness the various controls and procedures implemented across the business and the results are beginning to take effect.

Since the formation of the Green Team, our awareness for the environment has become increasingly apparent and that is purely as a result of the hard work and dedication contributed from our staff members. I hope that Castell Howell can continue to develop and maintain environmentally friendly processes for future generations and beyond.”
