THE BURGER SPECIALISTS

What makes a great burger?

Without doubt the meat is the star. We use only the best beef, lamb and pork cuts combined with the right level of seasoning, flavour, coarseness and fat content. From chuck to cheek, brisket to bone marrow, all are made to exact specifications that deliver their promise on every occasion.

Businesses have different requirements in terms of cooking, holding and menu price points. Thinner 'spread' burgers allow for quick cooking time with minimal holding, ideal for quick service operations. For a thicker restaurant burger we'd recommend the gourmet style, with options from traditional to novel.

The Range...

42357 Beef Chuck & Brisket Burgers **24 x 200g**

A blend of coarsely chopped chuck and brisket with added garlic. 89% meat content.

60542 Smashed Chuck Burgers **36 x 113g**
